his ideas are at the same time new, different and just mind-boggling, simply great.

Kurzbeschreibung With his infectious love of storytelling in all its forms, his rich characterisation and his unrivalled grasp of thrillingly bizarre cutting-edge science Hannu Rajaniemi has swiftly set a new benchmark for SF in the 21st century. And now with his third novel he completes the tale of his gentleman rogue, the many lives and minds of Jean de Flambeur. Influenced as much by the fin de siecle novels of Maurice leBlanc as he is by the greats of SF Rajaniemi weaves, intricate, warm capers through dazzling science, extraordinary visions of wild future and deep conjecture on the nature of reality and story. And now we find out what will happen to Jean, his employer Miele, the independently minded ship Perhonen and the rest of a fractured and diverse humanity flung through the solar system. **Pressestimmen** "A thrilling final ride...fans will walk away satisfied." "Publishers Weekly" "A thrilling final ride...fans will walk away satisfied."--Publishers Weekly **Werbetext** The latest novel from the most exciting new SF author of the last five years.
