Another good outing for McConeVon Ricky N."The Cheshire Cat's Eye" is the third book in the Sharon McCone series by Marcia Muller. McCone finds her friend Jake Kaufmann dead in a San Francisco Victorian house that he is restoring by painting it with gaudy colors. The architectural community is very opposed to these psychedelic houses. There are several suspects, and McCone is one of them. She must investigate, not only to clear her name, but find Jake's killer. Sharon McCone is by far my favorite female PI in detective fiction. Muller's characters are well-drawn, and her books are a pleasure to read. This novel is not as complex as some of her later works, but this is an excellent place to start. If you haven't yet met Sharon McCone, you will be in for a big treat.0 von 0 Kunden fanden die folgende Rezension hilfreich. A thrilling quick read!Von Ein KundeYet another great job by Muller. This time, she takes us into the world of San Francisco's famous "painted ladies." Ever wonder what secrets those grand old houses kept? The lives, the loves (and of course, the deaths) of one family are told in fantastic detail and originality. As Sharon is closing in on the killer, she sets an simple yet effective trap, and the pages turn quickly! Even if you've never been to SF, Muller's writing style will still place you right at the scene of the crime!0 von 0 Kunden fanden die folgende Rezension hilfreich. Not as good as other McCone mysteriesVon Ein KundeI've read about 5 of Muller's books featuring Sharon

McCone. This wasn't one of my favorites.

KurzbeschreibungTo tourists, bay-windowed Victorian mansions are quaint, peaceful symbols of old San Francisco, but on the secluded hill above Steiner Street, the gingerbread has sparked a bitter battle. Ambitious developers are pushing for restoration and residents are fighting for their homesuntil a controversial restorationist is found dead on the job, awash in garish housepaint. Private investigator Sharon McCone is called in only to discover a second bitter feud, this time between the developers and members of the city's powerful architectural community. As workmen rip through layers of sheetrock, plaster, and wallpaper, McCone unearths another, older crime: a cache of stolen antiques comes to light; and a missing one-of-a-kind Tiffany lamp emblazoned with the glowing profile of the Cheshire Cat becomes McCone's most important clue. To catch a killer, she must follow its eerie, knowing grin before its hidden eye foresees a fatal future.
