Von Kyle Stone : The Citadel (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Citadel (English Edition):

Micah in the middle of a conspiracy Von Danny That is not Stone's best novel, but Stone never really disappoint me. I hesitate to rate it 3 or 4 stars. I give it 4 because I remembered how many erotica books of other authors I have read and hated. I

know that this one is above a lot of gay SM novels.0 von 0 Kunden fanden die folgende Rezension hilfreich. One of my favorites!Von TammyJo EckhartAh a story which is complex, science fiction, and contains very arousing encounters all in one book. A good find, a rare find that should be promoted by purchasing and passing it along to your friends. Whether you are gay or straight, male or female, bottom or top, I think you can empathize with the trials and tribulations of our lost soldier not doubly lost from his native master. This second book in Kyle Stone's series gives us more insights into how the native culture works and the complexities that weren't even hinted at in the first. It is a book I pick up and read, or at least read parts of it, over and over again.
