Von Connie Lafortune : The Claiming of Callan (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Claiming of Callan (English Edition):

some important points for a great story. For once how can Lo have a monster deep inside him when you never can understand in the first place why and how and why? Because he is nothing but nice and sweet. Then there is the point with the predicament of you will know what will happen with Callan and Lo after the first chapter. Because there is no other option. It's too obvious. And another one...the attempts of turns and twists....nope did not do it for me. Just as you might think "oh where will this lead...bang it's already solved...bummer. Ok for a light and nice read.

Kurzbeschreibung My name is Logan Black... I've always known I was different, that something dark and twisted lurked just below the surface of my skin. Waiting, for her... Five years of passion and pleasure so intense, we begin and end together. Until one dark and rainy night, my life is forever changed... A heartbeat, a breath, or the blink of an eye, that's how quickly your perfect life could cease to exist. In a few short weeks, everyone I love is slipping through my fingers... Now, how can I possibly choose between the woman who owns my heart, and a family that needs me? Walking away is the most difficult thing I've ever done. I've convinced myself she's better off without me, but the monster inside aches for her... Callan will always be the light to my darkness. A year has passed by and I still crave her touch, her body tangled with mine. Until, one phone call changes everything. Now it's time to claim what's always been mine. **The Claiming of Callan** is a passionate and compelling novel a riveting story of love, heartache and one man's struggle to live without regrets about decisions he cannot change.
