Von glaukaThe idea was very entertaining and realistic...if vampires existed most probably this app would be created. For F as Feeding and S as Sex...and this time a wanna be coldhearted hooker gets her "holy

grail of vampires" as she put it herself when she meets Carlo...Nice story, lots of sex (mindblowing of course) and a happy ending. For an afternoon-leisure-read recommended.

KurzbeschreibungFor the vampires of St. Martens Glen, finding their next meal, or their next sexual encounter, has gone high tech. Need to feed? Theres an app for that. Want sex? Theres an app for that too. And Roxanne is one of the ladies of the night who is dispatched to fill the need of these savvy vampires, a new breed of call girl. But will she survive her new client, the vampire Carlo, and what he has planned for her?This ebook contains very explicit sexual content about Paranormal sex with Vampires. Adults only should read this book, and only those adults who will not be offended by mature content.Here is a preview:I apologize for the unusual request. I am not a conventional individual. Thats an understatement, Roxanne thought. The vamp...Carlo...continued, in a cold, remote voice.What I am looking for is 24 hours with a beautiful mortal. I have large appetites. I intend to bite, feed, have sex with you, and to repeat this process, with some variation of the order, as many times as it takes for me to be satisfied. I believe your service has a limit on the number of times I may feed from you. I will respect that limit, but as for sex....as far as I know your service has no limit on the number of times you can have sex, so there are no limits. As for the rest, well have to be flexible, wont we? Roxanne blinked in the dim light of the limo. This was far beyond anything shed ever been asked for. A tiny voice said run, but a much louder, and far more excited voice said maybe shed found the Holy Grail of clients. Almost every worker secretly hoped to find a long-term client that would take them out of permanent rotation, set them up as a kept mortal and see to their needs for the rest of their life, even if it meant the occasional feeding. Roxanne knew two women and one guy whod gotten into arrangements like that. Last she heard, one of the women had become a vampire, the second was living in the lap of luxury and the guy was rumored to either be dead or living in Mexico City. If she could make it through 24 hours with this guy, impress him enough, maybe hed keep her on permanent retainer. But not unless I get my head out of my ass and act the part.Is there a problem, Roxanne? I can enter your mind and read your thoughts, but Id rather we keep open communication. Roxanne swallowed hard. No, no problems. This is just beyond anything Ive ever been hired to do Try sounding professional, Rox...stop thinking like a back-alley hooker. She cleared her throat. I believe Ill be able to fully satisfy your needs. The Service and I appreciate your business.KurzbeschreibungFor the vampires of St. Martens Glen, finding their next meal, or their next sexual encounter, has gone high tech. Need to feed?
