Steampunk meets time travelVon LeselieseDie Medizinstudentin Felicia Sanchez wird durch einen Riss in der Zeit in ein Alternativuniversum geschleudert. Es gibt Dampfmaschinen, enge Korsetts und komische Schuhe mit seltsamen Fen darin. Felicia eckt an, als Frau, als Medizinstudentin und als ethnische Minderheit. Sie sucht bei Seamus Connor Hilfe, aber es ist nicht so einfach wie es scheint. Kann Felicia zurck? Und wenn ja, in welche Zeit? In welchem Universum?Ich habe das Buch sehr genossen. Es hat ein offenes Ende, da es der Auftakt zu einer Reihe ist. Wer sich darauf einlassen kann, dem sei dieses Buch empfohlen.

KurzbeschreibungBook 1 of The Time Corps ChroniclesThe Time Corps Chronicles is a fantasy series that moves from worlds much like our own to those where the mythical is real and the impossible is true. Clockworks, ancient spirits, time machines, talking animals and other things both beautiful and strange wait for the travelers daring enough to find them. But moving between worlds comes at a price.Medical student Felicia Sanchez is only trying to help an injured man when she slips through a time rip and into 19th century New Orleans, one very different than the one she knows from history books. The only person who can get her home is Professor Seamus Connor, a former convict seeking a quiet life of obscurity. But even the mad Irishman knows that recreating a freak accident is next to impossible. With the help of a local street urchin, they discover that their problems run deeper than solely getting Felicia back to her own time. The three of them must unravel the secrets of a steam engine that operates upon a scientific impossibility and the mysteries of a grand cathedral at the center of town, where clockwork automatons perform for rapt audiences. But can a convict, a guttersnipe and an accidental time traveler prevent the destruction of a city and the death of thousands? Others are watching, and Felicia may not be the only time traveler in New Orleans.KurzbeschreibungBook 1 of The Time Corps ChroniclesThe Time Corps Chronicles is a fantasy series that moves from worlds much like our own to those where the mythical is real and the impossible is true.
