What an amazing read!!Von Anne B.I just devoured this sweet, sexy and romantic story in one sitting. Both, Scott and James, are cute and sexy on each their own way. But together, you can't resist to want to read more of them. James, a sweet nerd, is strict against dating guys with kids and cops. Meeting Scott, who fits both his no-go-rules, he is doomed. And getting to know Scott more and even meeting his little son, Troy, James is more than confused then ever. Can he

handle to fall more and more for the sexy cop and adore his little son, though he never felt comfortable around any kid, no matter which "size" and age? This story just has it all, you can't stop till you know the end. I loved to see Scott and James being together and trying to get along with both their issues. Scott being over protective about his son and how James understands and wants to give it a try. But will they find the way to be together? Give it a try!! You won't regret it!!

Kurzbeschreibung~Editor's Pick~James O'Brien is having a horrible day. He's dropped his car off at a repair place in a bad part of town. While he's there minding his own business he ends up in a bar room brawl with a mouthy homophobic thug. Officer Scott Brown is the sexy, kind cop who arrives on the scene. He can tell immediately that while James is a geek, but he isn't a criminal, and is most likely just a nice guy caught up in a bad situation. The two of them have an immediate attraction and when Officer Brown gives James a ride home...things heat up.
